Description

Orthotics are devices that may be utilized to support, align, prevent or correct deformities or to improve the function of movable parts of the body. Orthotics include, but may not be limited to, braces (devices that support a weak joint or joints), splints (rigid devices used to immobilize an injury), casts (devices used to immobilize fractured body parts) and supports.

Orthotics may be classified as:

Over-the-counter (OTC) – off-the-shelf – Devices that are not modified or changed from the original product. These items are generally available without a prescription and typically not covered under the Plan.

Prefabricated – Devices that are generally premade; however, may require a fitting or adjustment to fit the individual.

Custom fabricated – Devices that involve substantial work such as cutting, bending, molding or sewing. An impression of the body part may also be made to form a model from which the orthotic is molded.

Examples of orthotics include, but may not be limited to:

- Air splints
- Cervical collars (eg, postsurgical)
- Clavicle splints (eg, figure eight splint)
- Finger splints (eg, volar plate or tendon avulsions)
- Knee immobilizers (eg, internal derangement, ligament sprains, postsurgical)
- Lumbar braces
- Orthopedic shoes
- Serial casting/plaster splinting
- Torsion bar braces
- Unloader braces, such as for the knee or back
- Wrist splints (eg, carpal tunnel syndrome)

Alternative types of orthotics include, but may not be limited to:

A scoliosis brace is utilized to help the individual's scoliosis curve from getting worse in hopes of avoiding surgical treatment. Scoliosis braces are typically rigid and cover the front and back of the upper body. Generally, thoracolumbosacral/lumbosacral (TLSO/LSO) braces are utilized. Other braces that have been introduced include tension-based braces (eg, SpineCor) and thermoplastic braces that purportedly have pressure and expansion areas built in to provide correction from three different anatomical planes (eg, Wood Cheneau Rigor brace).

Intrepid Dynamic Exoskeleton Orthosis (IDEO) is a custom molded device that was reportedly developed for individuals who have suffered massive tissue, nerve and bone damage to supposedly return capabilities to the injured ankle. Purportedly, the individual can return to a high level of activity, such as running. The IDEO device is molded out of lightweight black carbon that includes a foot plate and a strut that runs up the back of the calf to a cuff that is situated just below the knee. Reportedly, when force is applied to the foot plate, the strut bends. As the individual steps down, it bends the foot plate, transferring energy forward. The ExoSym brace resembles the IDEO orthosis; however, it is purportedly lighter and stronger than the original version.

Microprocessor activated mobility devices combine electronic components with specialized orthotic braces to reportedly aid in walking to individuals with back injuries or leg muscle weakness. Examples of microprocessor activated devices include, but may not be limited to, the C-Brace Orthotronic Mobility System or the Sensor Walk Stance Control knee brace.

Myoelectric orthotic devices were reportedly designed for upper limb deficiencies. They purportedly enable individuals who have been afflicted by a stroke or other neuromuscular conditions to self-initiate movement of a partially paralyzed arm using their own muscle signals. Supposedly, when the user tries to bend the affected limb, sensors in the brace detect the muscle signal, which activates the motor to move

the arm in the desired direction. Examples of this brace include, but may not be limited to, the MyoPro myoelectric limb orthosis and the Myomo e100.

Orthotic full body garments (eg, TheraTogs) are elasticized undergarments that include straps that are reportedly used for individuals with sensorimotor impairments. The garment along with the strapping purportedly improves stability, movement as well as postural alignment.

Wearable robotic exoskeletons have been developed to reportedly help individuals ambulate despite partial or complete paraplegia. The devices include fitted braces for the legs and upper body with motorized hip and knee joints, a backpack containing a computer and rechargeable batteries, an array of upper body motion sensors and a computer based wireless control system worn on the individual's wrist. Crutches are also used to provide the user with additional stability when walking, standing or rising from a chair. Typically, these devices are indicated for use by people with paraplegia due to spinal cord injuries at levels T7 to L5 when accompanied by a specially trained caregiver and for individuals with spinal cord injuries at levels T4 to T6 where the device is limited to use in rehabilitation institutions.^{45,47,52} Examples of these types of devices include, but may not be limited to, the following:

- Alalante
- EksoGT and EksoNR systems (for use only in rehabilitation institutions)
- Indego powered exoskeleton
- Keeogo Dermoskeleton system
- ReWalk Personal System
- ReWalk Restore

Generally, the use of these devices requires that individuals are able to stand using an assistive device (eg, standing frame) and their hands and shoulders are able to support crutches or a walker.^{45,47,52}

Coverage Determination

iCare follows the CMS requirements that only allows coverage and payment for services that are reasonable and necessary for the diagnosis and treatment of illness or injury or to improve the functioning of a malformed body member except as specifically allowed by Medicare.

In interpreting or supplementing the criteria above and in order to determine medical necessity consistently, iCare may consider the following criteria:

Fitting/application of a pre-packaged or "off the shelf" splint will be considered medically reasonable and necessary. (29105, 29125, 29126, 29130, 29131, 97760, 97799)

Please refer to the following CMS guidance:

The use of the criteria in this Medicare Advantage Medical Coverage Policy provides clinical benefits highly likely to outweigh any clinical harms. Services that do not meet the criteria above are not medically necessary and thus do not provide a clinical benefit. Medically unnecessary services carry risks of adverse outcomes and may interfere with the pursuit of other treatments which have demonstrated efficacy.

Coverage Limitations

[US Government Publishing Office. Electronic code of federal regulations: part 411 – 42 CFR § 411.15 - Particular services excluded from coverage](#)

The following services/items will not be considered medically reasonable and necessary:

- C-Brace Orthotronic Mobility System (**L2006**)
- Myoelectric upper extremity orthotic devices (**L8701, L8702**)
- Wearable robotic exoskeletons (eg, Atalante, EksoGT system, EksoNR system, Indego powered exoskeleton, Keeogo Dermoskeleton system, ReWalk Personal System, ReWalk ReStore) (**E1399, K1007**)

A review of the current medical literature shows that the evidence is insufficient to determine that these services/items are standard medical treatment. There remains an absence of randomized, blinded clinical studies examining benefit and long-term clinical outcomes establishing the value of these services in clinical management.

Summary of Evidence

C-Brace Orthotronic Mobility System

A clinical literature search was performed in health technology assessment that resulted in the evidence finding to be inconclusive for use of the C-Brace. One before and after study was located and found to have a high risk of bias.²¹

Myoelectric upper extremity orthotic devices

Current medical evidence is too limited in quantity and quality to determine how myoelectric prosthetic devices compare with other therapies intended to improve arm and hand impairment in individuals with upper extremity weakness or paralysis from conditions such as stroke, nerve injury, traumatic brain injury and neuromuscular diseases.^{19,24,27,35} Studies did show that clinical important and statistically significant gains were made on a measure of upper limb control however, further studies with a larger cohort are warranted.²⁸

Wearable robotic exoskeletons

Results of a clinical evidence assessment literature search resulted in two English-speaking before and after published studies for the use of an exoskeleton in individuals with multiple sclerosis in neurorehabilitation. Both studies reported improvement in gait efficiency and speed. Each study separately reported improved neuromotor coordination and lower limb strength in some participants. Conclusions reached included the positive effects of the exoskeletons were not long lasting and further investigation is warranted.¹⁸

The following services/items will not be considered medically reasonable and necessary:

- DDS 500 Lumbar Traction LSO belt
- E- Mag Active Knee Joint System
- ExoSym brace
- IDEO device
- Sensor Walk Stance Control knee brace
- Tension based scoliosis orthotic (eg, SpineCor System Dynamic Corrective Brace) **(L1005)**
- Wood Cheneau Rigo scoliosis brace **(L0999)**

A review of the current medical literature shows that there is no evidence to determine that these services/items are standard medical treatments. There is an absence of randomized, blinded clinical studies examining benefit and long-term clinical outcomes establishing the value of these services/items in clinical management.

Coding Information

Any codes listed on this policy are for informational purposes only. Do not rely on the accuracy and inclusion of specific codes. Inclusion of a code does not guarantee coverage and/or reimbursement for a service or procedure.

CPT® Code(s)	Description	Comments
97760	Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes	
CPT® Category III Code(s)	Description	Comments
No code(s) identified		
HCPCS Code(s)	Description	Comments
A4565	Slings	
A5500	For diabetics only, fitting (including follow-up), custom preparation and supply of off-the-shelf depth-inlay shoe manufactured to accommodate multidensity insert(s), per shoe	

A5501	For diabetics only, fitting (including follow-up), custom preparation and supply of shoe molded from cast(s) of patient's foot (custom molded shoe), per shoe	
A5503	For diabetics only, modification (including fitting) of off-the-shelf depth-inlay shoe or custom molded shoe with roller or rigid rocker bottom, per shoe	
A5504	For diabetics only, modification (including fitting) of off-the-shelf depth-inlay shoe or custom molded shoe with wedge(s), per shoe	
A5505	For diabetics only, modification (including fitting) of off-the-shelf depth-inlay shoe or custom molded shoe with metatarsal bar, per shoe	
A5506	For diabetics only, modification (including fitting) of off-the-shelf depth-inlay shoe or custom molded shoe with off-set heel(s), per shoe	
A5507	For diabetics only, not otherwise specified modification (including fitting) of off-the-shelf depth-inlay shoe or custom molded shoe, per shoe	
A5508	For diabetics only, deluxe feature of off-the-shelf depth-inlay shoe or custom molded shoe, per shoe	
A5510	For diabetics only, direct formed, compression molded to patient's foot without external heat source, multiple-density insert(s) prefabricated, per shoe	
A5512	For diabetics only, multiple density insert, direct formed, molded to foot after external heat source of 230 degrees Fahrenheit or higher, total contact with patient's foot, including arch, base layer minimum of 1/4 inch material of Shore A 35 durometer or 3/16 inch material of Shore A 40 durometer (or higher), prefabricated, each	
A5513	For diabetics only, multiple density insert, custom molded from model of patient's foot, total contact with patient's foot, including arch, base layer minimum of 3/16 inch material of Shore A 35 durometer (or higher), includes arch filler and other shaping material, custom fabricated, each	
A5514	For diabetics only, multiple density insert, made by direct carving with CAM technology from a rectified CAD model created from a digitized scan of the patient, total contact with patient's foot, including arch, base layer minimum of 3/16 inch material of Shore A 35 durometer (or higher), includes arch filler and other shaping material, custom fabricated, each	
A9285	Inversion/eversion correction device	

K1007	Bilateral hip, knee, ankle, foot (HKAFO) device, powered, includes pelvic component, single or double upright(s), knee joints any type, with or without ankle joints any type, includes all components and accessories, motors, microprocessors, sensors	
L0450	Thoracic-lumbar-sacral orthosis (TLSO), flexible, provides trunk support, upper thoracic region, produces intracavitary pressure to reduce load on the intervertebral disks with rigid stays or panel(s), includes shoulder straps and closures, prefabricated, off-the-shelf	
L0452	Thoracic-lumbar-sacral orthosis (TLSO), flexible, provides trunk support, upper thoracic region, produces intracavitary pressure to reduce load on the intervertebral disks with rigid stays or panel(s), includes shoulder straps and closures, custom fabricated	
L0454	Thoracic-lumbar-sacral orthosis (TLSO), flexible, provides trunk support, extends from sacrococcygeal junction to above T-9 vertebra, restricts gross trunk motion in the sagittal plane, produces intracavitary pressure to reduce load on the intervertebral disks with rigid stays or panel(s), includes shoulder straps and closures, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L0455	Thoracic-lumbar-sacral orthosis (TLSO), flexible, provides trunk support, extends from sacrococcygeal junction to above T-9 vertebra, restricts gross trunk motion in the sagittal plane, produces intracavitary pressure to reduce load on the intervertebral disks with rigid stays or panel(s), includes shoulder straps and closures, prefabricated, off-the-shelf	
L0456	Thoracic-lumbar-sacral orthosis (TLSO), flexible, provides trunk support, thoracic region, rigid posterior panel and soft anterior apron, extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, restricts gross trunk motion in the sagittal plane, produces intracavitary pressure to reduce load on the intervertebral disks, includes straps and closures, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	

L0457	Thoracic-lumbar-sacral orthosis (TLSO), flexible, provides trunk support, thoracic region, rigid posterior panel and soft anterior apron, extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, restricts gross trunk motion in the sagittal plane, produces intracavitary pressure to reduce load on the intervertebral disks, includes straps and closures, prefabricated, off-the-shelf	
L0458	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, modular segmented spinal system, two rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal, coronal, and transverse planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment	
L0460	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, modular segmented spinal system, two rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the sternal notch, soft liner, restricts gross trunk motion in the sagittal, coronal, and transverse planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L0462	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, modular segmented spinal system, three rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the sternal notch, soft liner, restricts gross trunk motion in the sagittal, coronal, and transverse planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment	

L0464	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, modular segmented spinal system, four rigid plastic shells, posterior extends from sacrococcygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to the sternal notch, soft liner, restricts gross trunk motion in sagittal, coronal, and transverse planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment	
L0466	Thoracic-lumbar-sacral orthosis (TLSO), sagittal control, rigid posterior frame and flexible soft anterior apron with straps, closures and padding, restricts gross trunk motion in sagittal plane, produces intracavitary pressure to reduce load on intervertebral disks, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L0467	Thoracic-lumbar-sacral orthosis (TLSO), sagittal control, rigid posterior frame and flexible soft anterior apron with straps, closures and padding, restricts gross trunk motion in sagittal plane, produces intracavitary pressure to reduce load on intervertebral disks, prefabricated, off-the-shelf	
L0468	Thoracic-lumbar-sacral orthosis (TLSO), sagittal-coronal control, rigid posterior frame and flexible soft anterior apron with straps, closures and padding, extends from sacrococcygeal junction over scapulae, lateral strength provided by pelvic, thoracic, and lateral frame pieces, restricts gross trunk motion in sagittal, and coronal planes, produces intracavitary pressure to reduce load on intervertebral disks, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L0469	Thoracic-lumbar-sacral orthosis (TLSO), sagittal-coronal control, rigid posterior frame and flexible soft anterior apron with straps, closures and padding, extends from sacrococcygeal junction over scapulae, lateral strength provided by pelvic, thoracic, and lateral frame pieces, restricts gross trunk motion in sagittal and coronal planes, produces intracavitary pressure to reduce load on intervertebral disks, prefabricated, off-the-shelf	

L0470	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, rigid posterior frame and flexible soft anterior apron with straps, closures and padding extends from sacrococcygeal junction to scapula, lateral strength provided by pelvic, thoracic, and lateral frame pieces, rotational strength provided by subclavicular extensions, restricts gross trunk motion in sagittal, coronal, and transverse planes, provides intracavitary pressure to reduce load on the intervertebral disks, includes fitting and shaping the frame, prefabricated, includes fitting and adjustment	
L0472	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, hyperextension, rigid anterior and lateral frame extends from symphysis pubis to sternal notch with two anterior components (one pubic and one sternal), posterior and lateral pads with straps and closures, limits spinal flexion, restricts gross trunk motion in sagittal, coronal, and transverse planes, includes fitting and shaping the frame, prefabricated, includes fitting and adjustment	
L0480	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, one-piece rigid plastic shell without interface liner, with multiple straps and closures, posterior extends from sacrococcygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, anterior or posterior opening, restricts gross trunk motion in sagittal, coronal, and transverse planes, includes a carved plaster or CAD-CAM model, custom fabricated	
L0482	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, one-piece rigid plastic shell with interface liner, multiple straps and closures, posterior extends from sacrococcygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, anterior or posterior opening, restricts gross trunk motion in sagittal, coronal, and transverse planes, includes a carved plaster or CAD-CAM model, custom fabricated	
L0484	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, two-piece rigid plastic shell without interface liner, with multiple straps and closures, posterior extends from sacrococcygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, lateral strength is enhanced by overlapping plastic, restricts gross trunk motion in the sagittal, coronal, and transverse planes, includes a carved plaster or CAD-CAM model, custom fabricated	

L0486	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, two-piece rigid plastic shell with interface liner, multiple straps and closures, posterior extends from sacrococcygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, lateral strength is enhanced by overlapping plastic, restricts gross trunk motion in the sagittal, coronal, and transverse planes, includes a carved plaster or CAD-CAM model, custom fabricated	
L0488	Thoracic-lumbar-sacral orthosis (TLSO), triplanar control, one-piece rigid plastic shell with interface liner, multiple straps and closures, posterior extends from sacrococcygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, anterior or posterior opening, restricts gross trunk motion in sagittal, coronal, and transverse planes, prefabricated, includes fitting and adjustment	
L0490	Thoracic-lumbar-sacral orthosis (TLSO), sagittal-coronal control, one-piece rigid plastic shell, with overlapping reinforced anterior, with multiple straps and closures, posterior extends from sacrococcygeal junction and terminates at or before the T-9 vertebra, anterior extends from symphysis pubis to xiphoid, anterior opening, restricts gross trunk motion in sagittal and coronal planes, prefabricated, includes fitting and adjustment	
L0491	Thoracic-lumbar-sacral orthosis (TLSO), sagittal-coronal control, modular segmented spinal system, two rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal and coronal planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment	
L0492	Thoracic-lumbar-sacral orthosis (TLSO), sagittal-coronal control, modular segmented spinal system, three rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal and coronal planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment	

L0621	Sacroiliac orthosis, flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, prefabricated, off-the-shelf	
L0622	Sacroiliac orthosis, flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, custom fabricated	
L0623	Sacroiliac orthosis, provides pelvic-sacral support, with rigid or semi-rigid panels over the sacrum and abdomen, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, prefabricated, off-the-shelf	
L0624	Sacroiliac orthosis, provides pelvic-sacral support, with rigid or semi-rigid panels placed over the sacrum and abdomen, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, custom fabricated	
L0625	Lumbar orthosis, flexible, provides lumbar support, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include pendulous abdomen design, shoulder straps, stays, prefabricated, off-the-shelf	
L0626	Lumbar orthosis, sagittal control, with rigid posterior panel(s), posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L0627	Lumbar orthosis, sagittal control, with rigid anterior and posterior panels, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	

L0628	Lumbar-sacral orthosis (LSO), flexible, provides lumbo-sacral support, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include stays, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf	
L0629	Lumbar-sacral orthosis (LSO), flexible, provides lumbo-sacral support, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include stays, shoulder straps, pendulous abdomen design, custom fabricated	
L0630	Lumbar-sacral orthosis (LSO), sagittal control, with rigid posterior panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L0631	Lumbar-sacral orthosis (LSO), sagittal control, with rigid anterior and posterior panels, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L0632	Lumbar-sacral orthosis (LSO), sagittal control, with rigid anterior and posterior panels, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, custom fabricated	
L0633	Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid posterior frame/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	

L0634	Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid posterior frame/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panel(s), produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, custom fabricated	
L0635	Lumbar-sacral orthosis (LSO), sagittal-coronal control, lumbar flexion, rigid posterior frame/panel(s), lateral articulating design to flex the lumbar spine, posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panel(s), produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, anterior panel, pendulous abdomen design, prefabricated, includes fitting and adjustment	
L0636	Lumbar-sacral orthosis (LSO), sagittal-coronal control, lumbar flexion, rigid posterior frame/panels, lateral articulating design to flex the lumbar spine, posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, anterior panel, pendulous abdomen design, custom fabricated	
L0637	Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid anterior and posterior frame/panels, posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L0638	Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid anterior and posterior frame/panels, posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, custom fabricated	

L0639	Lumbar-sacral orthosis (LSO), sagittal-coronal control, rigid shell(s)/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, anterior extends from symphysis pubis to xyphoid, produces intracavitary pressure to reduce load on the intervertebral discs, overall strength is provided by overlapping rigid material and stabilizing closures, includes straps, closures, may include soft interface, pendulous abdomen design, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L0640	Lumbar-sacral orthosis (LSO), sagittal-coronal control, rigid shell(s)/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, anterior extends from symphysis pubis to xyphoid, produces intracavitary pressure to reduce load on the intervertebral discs, overall strength is provided by overlapping rigid material and stabilizing closures, includes straps, closures, may include soft interface, pendulous abdomen design, custom fabricated	
L0641	Lumbar orthosis, sagittal control, with rigid posterior panel(s), posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf	
L0642	Lumbar orthosis, sagittal control, with rigid anterior and posterior panels, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf	
L0643	Lumbar-sacral orthosis (LSO), sagittal control, with rigid posterior panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf	
L0648	Lumbar-sacral orthosis (LSO), sagittal control, with rigid anterior and posterior panels, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf	

L0649	Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid posterior frame/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf	
L0650	Lumbar-sacral orthosis (LSO), sagittal-coronal control, with rigid anterior and posterior frame/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panel(s), produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, off-the-shelf	
L0651	Lumbar-sacral orthosis (LSO), sagittal-coronal control, rigid shell(s)/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, anterior extends from symphysis pubis to xyphoid, produces intracavitary pressure to reduce load on the intervertebral discs, overall strength is provided by overlapping rigid material and stabilizing closures, includes straps, closures, may include soft interface, pendulous abdomen design, prefabricated, off-the-shelf	
L0700	Cervical-thoracic-lumbar-sacral orthosis (CTLSO), anterior-posterior-lateral control, molded to patient model, (Minerva type)	
L0710	Cervical-thoracic-lumbar-sacral orthosis (CTLSO), anterior-posterior-lateral control, molded to patient model, with interface material, (Minerva type)	
L0810	Halo procedure, cervical halo incorporated into jacket vest	
L0820	Halo procedure, cervical halo incorporated into plaster body jacket	
L0830	Halo procedure, cervical halo incorporated into Milwaukee type orthotic	
L0859	Addition to halo procedure, magnetic resonance image compatible systems, rings and pins, any material	
L0861	Addition to halo procedure, replacement liner/interface material	
L0970	Thoracic-lumbar-sacral orthosis (TLSO), corset front	
L0972	Lumbar-sacral orthosis (LSO), corset front	
L0974	Thoracic-lumbar-sacral orthosis (TLSO), full corset	
L0976	Lumbar-sacral orthosis (LSO), full corset	
L0980	Peroneal straps, prefabricated, off-the-shelf, pair	

L0982	Stocking supporter grips, prefabricated, off-the-shelf, set of four (4)	
L0984	Protective body sock, prefabricated, off-the-shelf, each	
L0999	Addition to spinal orthosis, not otherwise specified	
L1000	Cervical-thoracic-lumbar-sacral orthosis (CTLSO) (Milwaukee), inclusive of furnishing initial orthotic, including model	
L1200	Thoracic-lumbar-sacral orthosis (TLSO), inclusive of furnishing initial orthosis only	
L1300	Other scoliosis procedure, body jacket molded to patient model	
L1310	Other scoliosis procedure, postoperative body jacket	
L1499	Spinal orthosis, not otherwise specified	
L1680	Hip orthosis (HO), abduction control of hip joints, dynamic, pelvic control, adjustable hip motion control, thigh cuffs (Rancho hip action type), custom fabricated	
L1685	Hip orthosis (HO), abduction control of hip joint, postoperative hip abduction type, custom fabricated	
L1686	Hip orthosis (HO), abduction control of hip joint, postoperative hip abduction type, prefabricated, includes fitting and adjustment	
L1690	Combination, bilateral, lumbo-sacral, hip, femur orthosis providing adduction and internal rotation control, prefabricated, includes fitting and adjustment	
L1700	Legg Perthes orthosis, (Toronto type), custom fabricated	
L1710	Legg Perthes orthosis, (Newington type), custom fabricated	
L1720	Legg Perthes orthosis, trilateral, (Tachdijan type), custom fabricated	
L1730	Legg Perthes orthosis, (Scottish Rite type), custom fabricated	
L1755	Legg Perthes orthosis, (Patten bottom type), custom fabricated	
L1810	Knee orthosis (KO), elastic with joints, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L1812	Knee orthosis (KO), elastic with joints, prefabricated, off-the-shelf	
L1820	Knee orthosis (KO), elastic with condylar pads and joints, with or without patellar control, prefabricated, includes fitting and adjustment	
L1830	Knee orthosis (KO), immobilizer, canvas longitudinal, prefabricated, off-the-shelf	
L1831	Knee orthosis (KO), locking knee joint(s), positional orthosis, prefabricated, includes fitting and adjustment	

L1832	Knee orthosis (KO), adjustable knee joints (unicentric or polycentric), positional orthosis, rigid support, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L1833	Knee orthosis (KO), adjustable knee joints (unicentric or polycentric), positional orthosis, rigid support, prefabricated, off-the shelf	
L1834	Knee orthosis (KO), without knee joint, rigid, custom fabricated	
L1836	Knee orthosis (KO), rigid, without joint(s), includes soft interface material, prefabricated, off-the-shelf	
L1840	Knee orthosis (KO), derotation, medial-lateral, anterior cruciate ligament, custom fabricated	
L1843	Knee orthosis (KO), single upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L1844	Knee orthosis (KO), single upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, custom fabricated	
L1845	Knee orthosis (KO), double upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L1846	Knee orthosis (KO), double upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, custom fabricated	
L1847	Knee orthosis (KO), double upright with adjustable joint, with inflatable air support chamber(s), prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L1848	Knee orthosis (KO), double upright with adjustable joint, with inflatable air support chamber(s), prefabricated, off-the-shelf	
L1850	Knee orthosis (KO), Swedish type, prefabricated, off-the-shelf	

L1851	Knee orthosis (KO), single upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, prefabricated, off-the-shelf	
L1852	Knee orthosis (KO), double upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, prefabricated, off-the-shelf	
L1860	Knee orthosis (KO), modification of supracondylar prosthetic socket, custom fabricated (SK)	
L1900	Ankle-foot orthosis (AFO), spring wire, dorsiflexion assist calf band, custom fabricated	
L1902	Ankle orthosis (AO), ankle gauntlet or similar, with or without joints, prefabricated, off-the-shelf	
L1904	Ankle orthosis (AO), ankle gauntlet or similar, with or without joints, custom fabricated	
L1906	Ankle foot orthosis (AFO), multiligamentous ankle support, prefabricated, off-the-shelf	
L1907	Ankle orthosis (AO), supramalleolar with straps, with or without interface/pads, custom fabricated	
L1910	Ankle-foot orthosis (AFO), posterior, single bar, clasp attachment to shoe counter, prefabricated, includes fitting and adjustment	
L1920	Ankle-foot orthosis (AFO), single upright with static or adjustable stop (Phelps or Perlstein type), custom fabricated	
L1930	Ankle-foot orthosis (AFO), plastic or other material, prefabricated, includes fitting and adjustment	
L1932	Ankle-foot orthosis (AFO), rigid anterior tibial section, total carbon fiber or equal material, prefabricated, includes fitting and adjustment	
L1940	Ankle-foot orthosis (AFO), plastic or other material, custom fabricated	
L1945	Ankle-foot orthosis (AFO), plastic, rigid anterior tibial section (floor reaction), custom fabricated	
L1950	Ankle-foot orthosis (AFO), spiral, (Institute of Rehabilitative Medicine type), plastic, custom fabricated	
L1951	Ankle-foot orthosis (AFO), spiral, (Institute of rehabilitative Medicine type), plastic or other material, prefabricated, includes fitting and adjustment	
L1960	Ankle-foot orthosis (AFO), posterior solid ankle, plastic, custom fabricated	

L1970	Ankle-foot orthosis (AFO), plastic with ankle joint, custom fabricated	
L1971	Ankle-foot orthosis (AFO), plastic or other material with ankle joint, prefabricated, includes fitting and adjustment	
L1980	Ankle-foot orthosis (AFO), single upright free plantar dorsiflexion, solid stirrup, calf band/cuff (single bar 'BK' orthosis), custom fabricated	
L1990	Ankle-foot orthosis (AFO), double upright free plantar dorsiflexion, solid stirrup, calf band/cuff (double bar 'BK' orthosis), custom fabricated	
L2000	Knee-ankle-foot orthosis (KAFO), single upright, free knee, free ankle, solid stirrup, thigh and calf bands/cuffs (single bar 'AK' orthosis), custom fabricated	
L2005	Knee-ankle-foot orthosis (KAFO), any material, single or double upright, stance control, automatic lock and swing phase release, any type activation, includes ankle joint, any type, custom fabricated	
L2006	Knee ankle foot device, any material, single or double upright, swing and stance phase microprocessor control with adjustability, includes all components (e.g., sensors, batteries, charger), any type activation, with or without ankle joint(s), custom fabricated	
L2010	Knee-ankle-foot orthosis (KAFO), single upright, free ankle, solid stirrup, thigh and calf bands/cuffs (single bar 'AK' orthosis), without knee joint, custom fabricated	
L2020	Knee-ankle-foot orthosis (KAFO), double upright, free ankle, solid stirrup, thigh and calf bands/cuffs (double bar 'AK' orthosis), custom fabricated	
L2030	Knee-ankle-foot orthosis (KAFO), double upright, free ankle, solid stirrup, thigh and calf bands/cuffs, (double bar 'AK' orthosis), without knee joint, custom fabricated	
L2034	Knee-ankle-foot orthosis (KAFO), full plastic, single upright, with or without free motion knee, medial-lateral rotation control, with or without free motion ankle, custom fabricated	
L2035	Knee-ankle-foot orthosis (KAFO), full plastic, static (pediatric size), without free motion ankle, prefabricated, includes fitting and adjustment	
L2036	Knee-ankle-foot orthosis (KAFO), full plastic, double upright, with or without free motion knee, with or without free motion ankle, custom fabricated	
L2037	Knee-ankle-foot orthosis (KAFO), full plastic, single upright, with or without free motion knee, with or without free motion ankle, custom fabricated	

L2038	Knee-ankle-foot orthosis (KAFO), full plastic, with or without free motion knee, multi-axis ankle, custom fabricated	
L2050	Hip-knee-ankle-foot orthosis (HKAFO), torsion control, bilateral torsion cables, hip joint, pelvic band/belt, custom fabricated	
L2060	Hip-knee-ankle-foot orthosis (HKAFO), torsion control, bilateral torsion cables, ball bearing hip joint, pelvic band/ belt, custom fabricated	
L2070	Hip-knee-ankle-foot orthosis (HKAFO), torsion control, unilateral rotation straps, pelvic band/belt, custom fabricated	
L2080	Hip-knee-ankle-foot orthosis (HKAFO), torsion control, unilateral torsion cable, hip joint, pelvic band/belt, custom fabricated	
L2106	Ankle-foot orthosis (AFO), fracture orthosis, tibial fracture cast orthosis, thermoplastic type casting material, custom fabricated	
L2108	Ankle-foot orthosis (AFO), fracture orthosis, tibial fracture cast orthosis, custom fabricated	
L2112	Ankle-foot orthosis (AFO), fracture orthosis, tibial fracture orthosis, soft, prefabricated, includes fitting and adjustment	
L2114	Ankle-foot orthosis (AFO), fracture orthosis, tibial fracture orthosis, semi-rigid, prefabricated, includes fitting and adjustment	
L2116	Ankle-foot orthosis (AFO), fracture orthosis, tibial fracture orthosis, rigid, prefabricated, includes fitting and adjustment	
L2126	Knee-ankle-foot orthosis (KAFO), fracture orthosis, femoral fracture cast orthosis, thermoplastic type casting material, custom fabricated	
L2128	Knee-ankle-foot orthosis (KAFO), fracture orthosis, femoral fracture cast orthosis, custom fabricated	
L2132	Knee-ankle-foot orthosis (KAFO), fracture orthosis, femoral fracture cast orthosis, soft, prefabricated, includes fitting and adjustment	
L2134	Knee-ankle-foot orthosis (KAFO), fracture orthosis, femoral fracture cast orthosis, semi-rigid, prefabricated, includes fitting and adjustment	
L2136	Knee-ankle-foot orthosis (KAFO), fracture orthosis, femoral fracture cast orthosis, rigid, prefabricated, includes fitting and adjustment	
L2180	Addition to lower extremity fracture orthosis, plastic shoe insert with ankle joints	
L2182	Addition to lower extremity fracture orthosis, drop lock knee joint	

L2184	Addition to lower extremity fracture orthosis, limited motion knee joint	
L2186	Addition to lower extremity fracture orthosis, adjustable motion knee joint, Lerman type	
L2188	Addition to lower extremity fracture orthosis, quadrilateral brim	
L2190	Addition to lower extremity fracture orthosis, waist belt	
L2192	Addition to lower extremity fracture orthosis, hip joint, pelvic band, thigh flange, and pelvic belt	
L2200	Addition to lower extremity, limited ankle motion, each joint	
L2210	Addition to lower extremity, dorsiflexion assist (plantar flexion resist), each joint	
L2220	Addition to lower extremity, dorsiflexion and plantar flexion assist/resist, each joint	
L2230	Addition to lower extremity, split flat caliper stirrups and plate attachment	
L2232	Addition to lower extremity orthosis, rocker bottom for total contact ankle-foot orthos (AFO), for custom fabricated orthosis only	
L2240	Addition to lower extremity, round caliper and plate attachment	
L2250	Addition to lower extremity, foot plate, molded to patient model, stirrup attachment	
L2260	Addition to lower extremity, reinforced solid stirrup (Scott-Craig type)	
L2265	Addition to lower extremity, long tongue stirrup	
L2270	Addition to lower extremity, varus/valgus correction (T) strap, padded/lined or malleolus pad	
L2275	Addition to lower extremity, varus/valgus correction, plastic modification, padded/lined	
L2280	Addition to lower extremity, molded inner boot	
L2300	Addition to lower extremity, abduction bar (bilateral hip involvement), jointed, adjustable	
L2310	Addition to lower extremity, abduction bar, straight	
L2320	Addition to lower extremity, nonmolded lacer, for custom fabricated orthosis only	
L2330	Addition to lower extremity, lacer molded to patient model, for custom fabricated orthosis only	
L2335	Addition to lower extremity, anterior swing band	
L2340	Addition to lower extremity, pretibial shell, molded to patient model	

L2350	Addition to lower extremity, prosthetic type, (BK) socket, molded to patient model, (used for PTB, AFO orthoses)	
L2360	Addition to lower extremity, extended steel shank	
L2370	Addition to lower extremity, Patten bottom	
L2375	Addition to lower extremity, torsion control, ankle joint and half solid stirrup	
L2380	Addition to lower extremity, torsion control, straight knee joint, each joint	
L2385	Addition to lower extremity, straight knee joint, heavy-duty, each joint	
L2387	Addition to lower extremity, polycentric knee joint, for custom fabricated knee-ankle-foot orthosis (KAFO), each joint	
L2390	Addition to lower extremity, offset knee joint, each joint	
L2395	Addition to lower extremity, offset knee joint, heavy-duty, each joint	
L2397	Addition to lower extremity orthosis, suspension sleeve	
L2405	Addition to knee joint, drop lock, each	
L2415	Addition to knee lock with integrated release mechanism (bail, cable, or equal), any material, each joint	
L2425	Addition to knee joint, disc or dial lock for adjustable knee flexion, each joint	
L2430	Addition to knee joint, ratchet lock for active and progressive knee extension, each joint	
L2492	Addition to knee joint, lift loop for drop lock ring	
L2500	Addition to lower extremity, thigh/weight bearing, gluteal/ischial weight bearing, ring	
L2510	Addition to lower extremity, thigh/weight bearing, quadrilateral brim, molded to patient model	
L2520	Addition to lower extremity, thigh/weight bearing, quadrilateral brim, custom fitted	
L2525	Addition to lower extremity, thigh/weight bearing, ischial containment/narrow M-L brim molded to patient model	
L2526	Addition to lower extremity, thigh/weight bearing, ischial containment/narrow M-L brim, custom fitted	
L2530	Addition to lower extremity, thigh/weight bearing, lacer, nonmolded	
L2540	Addition to lower extremity, thigh/weight bearing, lacer, molded to patient model	
L2550	Addition to lower extremity, thigh/weight bearing, high roll cuff	
L2580	Addition to lower extremity, pelvic control, pelvic sling	
L2600	Addition to lower extremity, pelvic control, hip joint, Clevis type, or thrust bearing, free, each	

L2610	Addition to lower extremity, pelvic control, hip joint, Clevis or thrust bearing, lock, each	
L2620	Addition to lower extremity, pelvic control, hip joint, heavy-duty, each	
L2622	Addition to lower extremity, pelvic control, hip joint, adjustable flexion, each	
L2624	Addition to lower extremity, pelvic control, hip joint, adjustable flexion, extension, abduction control, each	
L2627	Addition to lower extremity, pelvic control, plastic, molded to patient model, reciprocating hip joint and cables	
L2628	Addition to lower extremity, pelvic control, metal frame, reciprocating hip joint and cables	
L2630	Addition to lower extremity, pelvic control, band and belt, unilateral	
L2640	Addition to lower extremity, pelvic control, band and belt, bilateral	
L2650	Addition to lower extremity, pelvic and thoracic control, gluteal pad, each	
L2660	Addition to lower extremity, thoracic control, thoracic band	
L2670	Addition to lower extremity, thoracic control, paraspinal uprights	
L2680	Addition to lower extremity, thoracic control, lateral support uprights	
L2750	Addition to lower extremity orthosis, plating chrome or nickel, per bar	
L2755	Addition to lower extremity orthosis, high strength, lightweight material, all hybrid lamination/prepreg composite, per segment, for custom fabricated orthosis only	
L2760	Addition to lower extremity orthosis, extension, per extension, per bar (for lineal adjustment for growth)	
L2768	Orthotic side bar disconnect device, per bar	
L2780	Addition to lower extremity orthosis, noncorrosive finish, per bar	
L2785	Addition to lower extremity orthosis, drop lock retainer, each	
L2795	Addition to lower extremity orthosis, knee control, full kneecap	
L2800	Addition to lower extremity orthosis, knee control, knee cap, medial or lateral pull, for use with custom fabricated orthosis only	
L2810	Addition to lower extremity orthosis, knee control, condylar pad	
L2820	Addition to lower extremity orthosis, soft interface for molded plastic, below knee section	

L2830	Addition to lower extremity orthosis, soft interface for molded plastic, above knee section	
L2840	Addition to lower extremity orthosis, tibial length sock, fracture or equal, each	
L2850	Addition to lower extremity orthosis, femoral length sock, fracture or equal, each	
L2861	Addition to lower extremity joint, knee or ankle, concentric adjustable torsion style mechanism for custom fabricated orthotics only, each	
L2999	Lower extremity orthoses, not otherwise specified	
L3000	Foot insert, removable, molded to patient model, UCB type, Berkeley shell, each	
L3001	Foot, insert, removable, molded to patient model, Spenco, each	
L3002	Foot insert, removable, molded to patient model, Plastazote or equal, each	
L3003	Foot insert, removable, molded to patient model, silicone gel, each	
L3010	Foot insert, removable, molded to patient model, longitudinal arch support, each	
L3020	Foot insert, removable, molded to patient model, longitudinal/metatarsal support, each	
L3030	Foot insert, removable, formed to patient foot, each	
L3031	Foot, insert/plate, removable, addition to lower extremity orthosis, high strength, lightweight material, all hybrid lamination/prepreg composite, each	
L3040	Foot, arch support, removable, premolded, longitudinal, each	
L3050	Foot, arch support, removable, premolded, metatarsal, each	
L3060	Foot, arch support, removable, premolded, longitudinal/metatarsal, each	
L3070	Foot, arch support, nonremovable, attached to shoe, longitudinal, each	
L3080	Foot, arch support, nonremovable, attached to shoe, metatarsal, each	
L3090	Foot, arch support, nonremovable, attached to shoe, longitudinal/metatarsal, each	
L3100	Hallus-valgus night dynamic splint, prefabricated, off-the-shelf	
L3140	Foot, abduction rotation bar, including shoes	
L3150	Foot, abduction rotation bar, without shoes	
L3160	Foot, adjustable shoe-styled positioning device	
L3170	Foot, plastic, silicone or equal, heel stabilizer, prefabricated, off-the-shelf, each	

L3201	Orthopedic shoe, Oxford with supinator or pronator, infant	
L3202	Orthopedic shoe, Oxford with supinator or pronator, child	
L3203	Orthopedic shoe, Oxford with supinator or pronator, junior	
L3204	Orthopedic shoe, hightop with supinator or pronator, infant	
L3206	Orthopedic shoe, hightop with supinator or pronator, child	
L3207	Orthopedic shoe, hightop with supinator or pronator, junior	
L3208	Surgical boot, each, infant	
L3209	Surgical boot, each, child	
L3211	Surgical boot, each, junior	
L3212	Benesch boot, pair, infant	
L3213	Benesch boot, pair, child	
L3214	Benesch boot, pair, junior	
L3215	Orthopedic footwear, ladies shoe, Oxford, each	
L3216	Orthopedic footwear, ladies shoe, depth inlay, each	
L3217	Orthopedic footwear, ladies shoe, hightop, depth inlay, each	
L3219	Orthopedic footwear, mens shoe, Oxford, each	
L3221	Orthopedic footwear, mens shoe, depth inlay, each	
L3222	Orthopedic footwear, mens shoe, hightop, depth inlay, each	
L3224	Orthopedic footwear, woman's shoe, Oxford, used as an integral part of a brace (orthosis)	
L3225	Orthopedic footwear, man's shoe, Oxford, used as an integral part of a brace (orthosis)	
L3230	Orthopedic footwear, custom shoe, depth inlay, each	
L3251	Foot, shoe molded to patient model, silicone shoe, each	
L3252	Foot, shoe molded to patient model, Plastazote (or similar), custom fabricated, each	
L3253	Foot, molded shoe, Plastazote (or similar), custom fitted, each	
L3254	Nonstandard size or width	
L3255	Nonstandard size or length	
L3257	Orthopedic footwear, additional charge for split size	
L3260	Surgical boot/shoe, each	
L3265	Plastazote sandal, each	
L3300	Lift, elevation, heel, tapered to metatarsals, per in	
L3310	Lift, elevation, heel and sole, neoprene, per in	
L3320	Lift, elevation, heel and sole, cork, per in	
L3330	Lift, elevation, metal extension (skate)	
L3332	Lift, elevation, inside shoe, tapered, up to one-half in	
L3334	Lift, elevation, heel, per in	
L3340	Heel wedge, SACH	
L3350	Heel wedge	
L3360	Sole wedge, outside sole	
L3370	Sole wedge, between sole	

L3380	Clubfoot wedge	
L3390	Outflare wedge	
L3400	Metatarsal bar wedge, rocker	
L3410	Metatarsal bar wedge, between sole	
L3420	Full sole and heel wedge, between sole	
L3430	Heel, counter, plastic reinforced	
L3440	Heel, counter, leather reinforced	
L3450	Heel, SACH cushion type	
L3455	Heel, new leather, standard	
L3460	Heel, new rubber, standard	
L3465	Heel, Thomas with wedge	
L3470	Heel, Thomas extended to ball	
L3480	Heel, pad and depression for spur	
L3485	Heel, pad, removable for spur	
L3500	Orthopedic shoe addition, insole, leather	
L3510	Orthopedic shoe addition, insole, rubber	
L3520	Orthopedic shoe addition, insole, felt covered with leather	
L3530	Orthopedic shoe addition, sole, half	
L3540	Orthopedic shoe addition, sole, full	
L3550	Orthopedic shoe addition, toe tap, standard	
L3560	Orthopedic shoe addition, toe tap, horseshoe	
L3570	Orthopedic shoe addition, special extension to instep (leather with eyelets)	
L3580	Orthopedic shoe addition, convert instep to Velcro closure	
L3590	Orthopedic shoe addition, convert firm shoe counter to soft counter	
L3595	Orthopedic shoe addition, March bar	
L3600	Transfer of an orthosis from one shoe to another, caliper plate, existing	
L3610	Transfer of an orthosis from one shoe to another, caliper plate, new	
L3620	Transfer of an orthosis from one shoe to another, solid stirrup, existing	
L3630	Transfer of an orthosis from one shoe to another, solid stirrup, new	
L3640	Transfer of an orthosis from one shoe to another, Dennis Browne splint (Riveton), both shoes	
L3649	Orthopedic shoe, modification, addition or transfer, not otherwise specified	
L3650	Shoulder orthosis (SO), figure of eight design abduction restrainer, prefabricated, off-the-shelf	

L3660	Shoulder orthosis (SO), figure of eight design abduction restrainer, canvas and webbing, prefabricated, off-the-shelf	
L3670	Shoulder orthosis (SO), acromio/clavicular (canvas and webbing type), prefabricated, off-the-shelf	
L3671	Shoulder orthosis (SO), shoulder joint design, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3674	Shoulder orthosis (SO), abduction positioning (airplane design), thoracic component and support bar, with or without nontorsion joint/turnbuckle, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3675	Shoulder orthosis (SO), vest type abduction restrainer, canvas webbing type or equal, prefabricated, off-the-shelf	
L3677	Shoulder orthosis (SO), shoulder joint design, without joints, may include soft interface, straps, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L3678	Shoulder orthosis (SO), shoulder joint design, without joints, may include soft interface, straps, prefabricated, off-the-shelf	
L3702	Elbow orthosis (EO), without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3710	Elbow orthosis (EO), elastic with metal joints, prefabricated, off-the-shelf	
L3720	Elbow orthosis (EO), double upright with forearm/arm cuffs, free motion, custom fabricated	
L3730	Elbow orthosis (EO), double upright with forearm/arm cuffs, extension/ flexion assist, custom fabricated	
L3740	Elbow orthosis (EO), double upright with forearm/arm cuffs, adjustable position lock with active control, custom fabricated	
L3760	Elbow orthosis (EO), with adjustable position locking joint(s), prefabricated, item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L3761	Elbow orthosis (EO), with adjustable position locking joint(s), prefabricated, off-the-shelf	
L3762	Elbow orthosis (EO), rigid, without joints, includes soft interface material, prefabricated, off-the-shelf	
L3763	Elbow-wrist-hand orthosis (EWHO), rigid, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	

L3764	Elbow-wrist-hand orthosis (EWHO), includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3765	Elbow-wrist-hand-finger orthosis (EWHFO), rigid, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3766	Elbow-wrist-hand-finger orthosis (EWHFO), includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3806	Wrist-hand-finger orthosis (WHFO), includes one or more nontorsion joint(s), turnbuckles, elastic bands/springs, may include soft interface material, straps, custom fabricated, includes fitting and adjustment	
L3807	Wrist-hand-finger orthosis (WHFO), without joint(s), prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L3808	Wrist-hand-finger orthosis (WHFO), rigid without joints, may include soft interface material; straps, custom fabricated, includes fitting and adjustment	
L3809	Wrist-hand-finger orthosis (WHFO), without joint(s), prefabricated, off-the-shelf, any type	
L3891	Addition to upper extremity joint, wrist or elbow, concentric adjustable torsion style mechanism for custom fabricated orthotics only, each	
L3900	Wrist-hand-finger orthosis (WHFO), dynamic flexor hinge, reciprocal wrist extension/ flexion, finger flexion/extension, wrist or finger driven, custom fabricated	
L3901	Wrist-hand-finger orthosis (WHFO), dynamic flexor hinge, reciprocal wrist extension/ flexion, finger flexion/extension, cable driven, custom fabricated	
L3904	Wrist-hand-finger orthosis (WHFO), external powered, electric, custom fabricated	
L3905	Wrist-hand orthosis (WHO), includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3906	Wrist-hand orthosis (WHO), without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3908	Wrist-hand orthosis (WHO), wrist extension control cock-up, nonmolded, prefabricated, off-the-shelf	

L3912	Hand-finger orthosis (HFO), flexion glove with elastic finger control, prefabricated, off-the-shelf	
L3913	Hand-finger orthosis (HFO), without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3915	Wrist-hand orthosis (WHO), includes one or more nontorsion joint(s), elastic bands, turnbuckles, may include soft interface, straps, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L3916	Wrist-hand orthosis (WHO), includes one or more nontorsion joint(s), elastic bands, turnbuckles, may include soft interface, straps, prefabricated, off-the-shelf	
L3917	Hand orthosis (HO), metacarpal fracture orthosis, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L3918	Hand orthosis (HO), metacarpal fracture orthosis, prefabricated, off-the-shelf	
L3919	Hand orthosis (HO), without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3921	Hand-finger orthosis (HFO), includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3923	Hand-finger orthosis (HFO), without joints, may include soft interface, straps, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L3924	Hand-finger orthosis (HFO), without joints, may include soft interface, straps, prefabricated, off-the-shelf	
L3925	Finger orthosis (FO), proximal interphalangeal (PIP)/distal interphalangeal (DIP), nontorsion joint/spring, extension/flexion, may include soft interface material, prefabricated, off-the-shelf	
L3927	Finger orthosis (FO), proximal interphalangeal (PIP)/distal interphalangeal (DIP), without joint/spring, extension/flexion (e.g., static or ring type), may include soft interface material, prefabricated, off-the-shelf	
L3929	Hand-finger orthosis (HFO), includes one or more nontorsion joint(s), turnbuckles, elastic bands/springs, may include soft interface material, straps, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	

L3930	Hand-finger orthosis (HFO), includes one or more nontorsion joint(s), turnbuckles, elastic bands/springs, may include soft interface material, straps, prefabricated, off-the-shelf	
L3931	Wrist-hand-finger orthosis (WHFO), includes one or more nontorsion joint(s), turnbuckles, elastic bands/springs, may include soft interface material, straps, prefabricated, includes fitting and adjustment	
L3933	Finger orthosis (FO), without joints, may include soft interface, custom fabricated, includes fitting and adjustment	
L3935	Finger orthosis (FO), nontorsion joint, may include soft interface, custom fabricated, includes fitting and adjustment	
L3956	Addition of joint to upper extremity orthosis, any material; per joint	
L3960	Shoulder-elbow-wrist-hand orthosis (SEWHO), abduction positioning, airplane design, prefabricated, includes fitting and adjustment	
L3961	Shoulder-elbow-wrist-hand orthosis (SEWHO), shoulder cap design, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3962	Shoulder-elbow-wrist-hand orthosis (SEWHO), abduction positioning, Erb's palsy design, prefabricated, includes fitting and adjustment	
L3967	Shoulder-elbow-wrist-hand orthosis (SEWHO), abduction positioning (airplane design), thoracic component and support bar, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3971	Shoulder-elbow-wrist-hand orthotic (SEWHO), shoulder cap design, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3973	Shoulder-elbow-wrist-hand orthosis (SEWHO), abduction positioning (airplane design), thoracic component and support bar, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3975	Shoulder-elbow-wrist-hand-finger orthosis (SEWHO), shoulder cap design, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3976	Shoulder-elbow-wrist-hand-finger orthosis (SEWHO), abduction positioning (airplane design), thoracic component and support bar, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment	

L3977	Shoulder-elbow-wrist-hand-finger orthosis (SEWHO), shoulder cap design, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3978	Shoulder-elbow-wrist-hand-finger orthosis (SEWHO), abduction positioning (airplane design), thoracic component and support bar, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment	
L3980	Upper extremity fracture orthosis, humeral, prefabricated, includes fitting and adjustment	
L3981	Upper extremity fracture orthosis, humeral, prefabricated, includes shoulder cap design, with or without joints, forearm section, may include soft interface, straps, includes fitting and adjustments	
L3982	Upper extremity fracture orthosis, radius/ulnar, prefabricated, includes fitting and adjustment	
L3984	Upper extremity fracture orthosis, wrist, prefabricated, includes fitting and adjustment	
L3995	Addition to upper extremity orthosis, sock, fracture or equal, each	
L3999	Upper limb orthosis, not otherwise specified	
L4000	Replace girdle for spinal orthosis (cervical-thoracic-lumbar-sacral orthosis (CTLSO) or spinal orthosis SO)	
L4002	Replacement strap, any orthosis, includes all components, any length, any type	
L4010	Replace trilateral socket brim	
L4020	Replace quadrilateral socket brim, molded to patient model	
L4030	Replace quadrilateral socket brim, custom fitted	
L4040	Replace molded thigh lacer, for custom fabricated orthosis only	
L4045	Replace nonmolded thigh lacer, for custom fabricated orthosis only	
L4050	Replace molded calf lacer, for custom fabricated orthosis only	
L4055	Replace nonmolded calf lacer, for custom fabricated orthosis only	
L4060	Replace high roll cuff	
L4070	Replace proximal and distal upright for KAFO	

L4080	Replace metal bands KAFO, proximal thigh	
L4090	Replace metal bands KAFO-AFO, calf or distal thigh	
L4100	Replace leather cuff KAFO, proximal thigh	
L4110	Replace leather cuff KAFO-AFO, calf or distal thigh	
L4130	Replace pretibial shell	
L4205	Repair of orthotic device, labor component, per 15 minutes	
L4210	Repair of orthotic device, repair or replace minor parts	
L4350	Ankle control orthosis, stirrup style, rigid, includes any type interface (e.g., pneumatic, gel), prefabricated, off-the-shelf	
L4360	Walking boot, pneumatic and/or vacuum, with or without joints, with or without interface material, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L4361	Walking boot, pneumatic and/or vacuum, with or without joints, with or without interface material, prefabricated, off-the-shelf	
L4370	Pneumatic full leg splint, prefabricated, off-the-shelf	
L4386	Walking boot, nonpneumatic, with or without joints, with or without interface material, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L4387	Walking boot, nonpneumatic, with or without joints, with or without interface material, prefabricated, off-the-shelf	
L4392	Replacement, soft interface material, static AFO	
L4394	Replace soft interface material, foot drop splint	
L4396	Static or dynamic ankle foot orthosis, including soft interface material, adjustable for fit, for positioning, may be used for minimal ambulation, prefabricated item that has been trimmed, bent, molded, assembled, or otherwise customized to fit a specific patient by an individual with expertise	
L4397	Static or dynamic ankle foot orthosis, including soft interface material, adjustable for fit, for positioning, may be used for minimal ambulation, prefabricated, off-the-shelf	
L4398	Foot drop splint, recumbent positioning device, prefabricated, off-the-shelf	

L4631	Ankle-foot orthosis (AFO), walking boot type, varus/valgus correction, rocker bottom, anterior tibial shell, soft interface, custom arch support, plastic or other material, includes straps and closures, custom fabricated	
L8300	Truss, single with standard pad	
L8310	Truss, double with standard pads	
L8320	Truss, addition to standard pad, water pad	
L8330	Truss, addition to standard pad, scrotal pad	
L8701	Powered upper extremity range of motion assist device, elbow, wrist, hand with single or double upright(s), includes microprocessor, sensors, all components and accessories, custom fabricated	
L8702	Powered upper extremity range of motion assist device, elbow, wrist, hand, finger, single or double upright(s), includes microprocessor, sensors, all components and accessories, custom fabricated	
L9900	Orthotic and prosthetic supply, accessory, and/or service component of another HCPCS L code
