

Provider News Bulletin

Coronavirus Information

By Mary Ellen Benzik, MD
iCare Medical Director

iCare wants to help you stay abreast of the latest recommendations in this emerging situation.

Coronaviruses are a large family of viruses, some causing illness in people and others among animals. 2019-nCoV is a new coronavirus that can cause mild to severe illness. iCare wants providers to be informed so you can help your patients make smart choices.

Below, find links that answer questions like:

- What is 2019-nCoV?
- What are the signs and symptoms?
- How does it spread?
- Who is most at risk?
- How can I protect myself?

More information is available in this [article from the Milwaukee Health Department](#).

There are also a variety of resources, including:

- Interim Guidance for Health Care
- Preparedness Checklists
- Many more
